- NANCY, HONDURAS
I have started the “Share Your Sprouts” community garden challenge. Our goal is to see how many varieties of fruits and veggies we can grow/regrow using only items from our homes. When the seeds from a single watermelon produced over 100 sprouts we opted to share seedlings with each other. My neighbor who raises chickens ‘generously’ donated manure which added to our compost gave us a better than store bought completely p organic fertilizer and a bit of dish soap, vinegar and water serves as a pretty good pesticide. To date we have 8 different types of fruit, and 18 types of vegetables. Although a few veggies didn’t really produce much, it has been very educational (thank you YouTube!) and loads of fun. All in all a huge success!

- DEBRA, MI

Do you have big plans when the pandemic is over?

- Kathy, KY: We are just looking forward to eating at restaurants and being able to see our children and grandchildren that we haven’t seen for 15 months in another state.

- Carol, VA: Yes, my husband of 50 years passed away during the pandemic and family could not make the 600 mile trip so I have been alone since. When it is over I am going to take that trip and have a vacation with family and friends.

- Bill, Southeast MI: After this Covid-19 is over, I would more time at the cottage in Western Michigan. Just get out and about after months of hunkered down. I’ve had both Pfizer vaccines.

- James, AZ: Maybe to visit my friends back east we came from New Jersey my wife passed away and soon as this is over I’m going back.

- Sue, CT: Hug my sister who lost her husband to cancer at the very beginning of Covid.

- Jan, Illinois: No. Just being able to see relatives that I have not being able to see in person. But I do not believe the pandemic will be “over”. There are too many developing countries that will never be able to get the vaccines they need, nor will they have the infrastructure to get the vaccines to their population.

- Deborah, St. Louis, MT: These continuing education classes are very informative, its easy to interact with the instructor, and the interaction is almost one on one.

- Deborah, St. Louis, MT: Continue to be careful and stay safe.

- Ed, MI: Yes attend more bluegrass festivals.

- Anonymous: No plans right now, just take one day at a time.

- Anonymous: Yes. Just being able to see relatives that we haven’t seen for 15 months in another state.

- pam, TN: Take me a trip.

- Rita, Spark, NV: Just continue my dream job.

- Joan, MI: After the pandemic I am going to vacation. I have a scheduled trip to Myrtle beach with my sister and her family. I would also like to go to Cancun. But I can’t wait to see all my church friends in person and give them a hug.

- SUE, CT: We are taking an auto trip around our great state of Michigan to view 7 lighthouses on Lake Michigan and Lake Huron.

- Debra, MI: No plans right now, just take one day at a time.
